

1. Introduction

Neura Token (NRX) is a blockchain-based digital asset built on the BNB Smart Chain (BSC). The project is designed to support smart digital growth by enabling secure, transparent, and efficient blockchain-based interactions.

NRX is created to bridge early private participation with a structured public launch, ensuring sustainable development, transparency, and long-term value creation.

2. Problem Statement

Many blockchain projects fail due to:

Lack of transparency

Poor project structure

Unclear token distribution

Weak early-stage funding mechanisms

These challenges reduce trust and limit adoption by both users and early supporters.

3. Neura Solution

Neura Token addresses these issues by:

Using BNB Smart Chain for low fees and fast transactions

Implementing transparent token allocation

Providing clear project documentation and disclosures

Structuring private participation responsibly before public launch

The goal is to create a simple, understandable, and trustworthy blockchain project.

4. Token Utility

NRX will be used for:

Participation in the Neura ecosystem

Access to future digital tools and services

Community-driven initiatives

Transaction and platform utility

The token is designed for ecosystem growth rather than short term speculation.

5. Token Information

Token Name: Neura Token

Symbol: NRX

Network: BNB Smart Chain (BEP-20)

Contract Address:

0x843359Fc72AB9C741c88EA32a224005f9AED5eD7

6. Tokenomics

Total Supply: 300,000,000 NRX

Allocation Overview:

Private Sale: 1% (3,000,000 NRX)

Ecosystem & Development: Reserved

Liquidity: Reserved for launch

Community & Growth: Reserved

Exact allocations are designed to support long-term sustainability.

7. Private Sale Overview

The private sale is designed to support early development and operational costs.

Private Sale Allocation: 3,000,000 NRX

Target Raise: \$5,000

Participants: Limited number of strategic buyers

Distribution: Tokens allocated for claim at launch

Private participants are reserving allocation rights, not trading tokens.

8. Roadmap

Phase 1 Foundation

Token deployment

Website launch

Documentation (Whitepaper)

Private allocation

Phase 2 Launch Preparation

Liquidity setup

Public communication

Token tracking platforms

Phase 3 Public Launch

Token distribution

Ecosystem rollout

Community expansion

9. Team & Founder

Neura Token is founded by Mumba Sampa, focusing on building transparent and sustainable blockchain solutions.

The project emphasizes accountability, clear communication, and responsible growth.

10. Security & Transparency

Deployed on BNB Smart Chain

Contract publicly verifiable

Token data accessible via BscScan

Clear project documentation

Security and transparency are core priorities.

11. Disclaimer

Neura Token (NRX) is a blockchain-based digital asset. Participation involves risk. This document does not constitute financial advice. Users are responsible for their own decisions and compliance with local regulations.
